Education

B.Sc. in Data Science (Expected 2026) Department of Technology,

Savitribai Phule Pune University (SPPU)

CGPA: 9.69

Projects

MediCare Reminder & Availability System

Technologies Used: Django, HTML/CSS, Python, Email API, Machine Learning (scikit-learn)

A web-based medical reminder system with user login, email/popup medicine alerts, and medicine availability tracking. Includes an ML module suggesting medicines based on symptoms.

<https://github.com/vaishnavii-punde/Medicare>

Explaina - Automated EDA & Insight Generator

Technologies Used: Streamlit, Pandas, Matplotlib, Seaborn, Numpy, Python

A Streamlit app for uploading CSVs to auto-generate EDA visualizations and natural-language insights. Includes export and visual description features.

<https://github.com/vaishnavii-punde/Explania>

Skills

Programming Languages: Python, R

Web Development: HTML, CSS, Django, Streamlit

Data Science & Machine Learning: Pandas, Numpy, Scikit-learn, SQL, MySQL

Visualization: Matplotlib, Seaborn

Other Tools: Git, GitHub

Certifications & Internships

* Machine Learning Internship - Codtech IT Solutions (Jan 10 - Feb 10, 2025)

Hands-on ML experience with real-world implementation projects.

* Data Visualisation: Empowering Business with Effective Insights - Tata Forage (Completed Jan 6, 2025)

Covered business framing, chart selection, visualization, and communication of insights.

* Internship on Data Processing for Guinness Record Project - Dept. of Technology, SPPU (Dec 2 - Dec 21, 2024)

Worked on data collection, coordination, cleaning, and management for a world record dataset project.
